## History:

I have been crafting for approximately eight years now. I needed a hobby when my children graduated High School and joined the Navy. I started out making Christmas wreaths and recipe albums. I got that idea after a family get together and we were talking about all the “aunts” that have passed away, recipes that were our favorites and that's how that idea came to life.

I have ventured into other crafts and have now joined the world of Cricut. I absolutely love it and have learned so much about what you can do and create with one. I make T-shirts, Signs, bags with designs and so much more. Ask me what I can create for you! I still do my hand crafted and paper crafting items as well!

## Festivals and Events:

I have participated in several events and Festivals over the years. My favorite so far has been the Wizard of Oz Festival in Hannibal, MO last year. Besides crafting I am an avid Wizard of Oz collector. I made items tailored to just that. I most recently did a Jeep gathering and made decals for their vehicles and can koozies.

## Listing of Creations for the Mid-Mo Baby Expo:
